**Kohala Watershed Partnership Volunteer Work Days**

The Kohala Watershed Partnership (KWP) now offers two volunteer opportunities each month. Our focus is watershed preservation and restoration on Kohala Mountain. On April 10, we will do invasive species control in the upper, wetter corridor. On April 17, we will do our very first volunteer day of planting in the Pelekane Watershed. Come and help to rejuvenate these spectacular and critical stream corridors. All ages welcome. Tools provided. Please e-mail [pelekaneadmin@kohalawatershed.org](mailto:pelekaneadmin@kohalawatershed.org) by Wednesday, April 7, for details, directions and reservations. Visit the KWP Web site at [www.hawp.org/kohala.asp](http://www.hawp.org/kohala.asp) and view our blog that keeps you up to date on one of our projects, the Pelekane Bay Watershed Restoration: <http://kohalacenter.org/pelekaneblog/>.
