

Leeward Seed Library

Take, Leave, Share

We hope to inspire and enable our Leeward Ohana to grow food locally and share seeds and information with others to support a more sustainable food system

Leeward Community College Library is excited to unveil their new collection of FREE SEEDS for Leeward CC student, staff, faculty, and community patrons! The seeds have been propagated here on campus by students in horticulture (Hort 110) and are ideal for planting in our area at this time of year.
