

We are pleased to invite you to NOAA's

Symposium on Kona's (West Hawai'i) Marine Ecosystem: Trends and Status

September 4 - 5, 2014

9 AM - 5 PM

King Kamehameha's Kona Beach Hotel
Kailua-Kona, Hawai'i

The purpose of this two day symposium is to provide a forum for scientists and managers to present and discuss information pertaining to the coastal marine ecosystem of West Hawai'i. An important focus will be to identify key time series information that can serve as indicators of ecosystem state.

The symposium is lead by the Pacific Island Fisheries Science Center Integrated Ecosystem Assessment, a program that brings together citizens, scientists, resource managers and policy makers to better understand and manage marine ecosystems.

Registration is still open: Please visit our KONA IEA website to register and for information on special symposium rates at the King Kamehameha's Kona Beach Hotel: http://www.pifsc.noaa.gov/kona_ia
